PRIMARY JOB FUNCTIONS

The Medical Records Manager job duties require an in-depth knowledge of health care services, standards and systems for documentation of patient care, electronic health care records, health informatics, systems analysis, leadership, quality assurance/improvement, budget management, and legal issues related to health care information and documentation. The duties of this position include:

- Responsibility for oversight, implementation, and monitoring of systems, policies, and procedures for medical records throughout Public Health-Seattle & King County.
- Management and oversight for systems and processes for protecting the confidentiality of patient health information and insuring appropriate process are in place for authorizations to release PHI.
- Management and oversight of systems and processes for medical records retention and retrieval.
- Management and oversight of systems and processes for purging medical records.
- Oversight of procedures for documentation and organization of the medical record, and management and approval of medical record forms.
- Ensure that staff are trained with regard to medical record policies and procedures and develop systems to monitor and enforce these policies and procedures.
- Serve as a resource for site medical records staff regarding daily operational issues and report risk trends and statistics to site and program managers and Public Health risk management staff.
- Active participation in developing policies and procedures to insure that Public Health is in compliance with Federal HIPAA regulations that will be in effect in year 2003.
- Work with Public Health's new electronic billing and data system to develop a system for purging medical records from active files and moving towards an electronic medical records system.

KING COUNTY IS AN EQUAL OPPORTUNITY EMPLOYER. JOB ANNOUNCEMENTS ARE AVAILABLE IN ALTERNATIVE FORMATS FOR PERSONS WITH DISABILITIES.
